

ST. LOUIS COUNTY PRESCRIPTION DRUG MONITORING PROGRAM

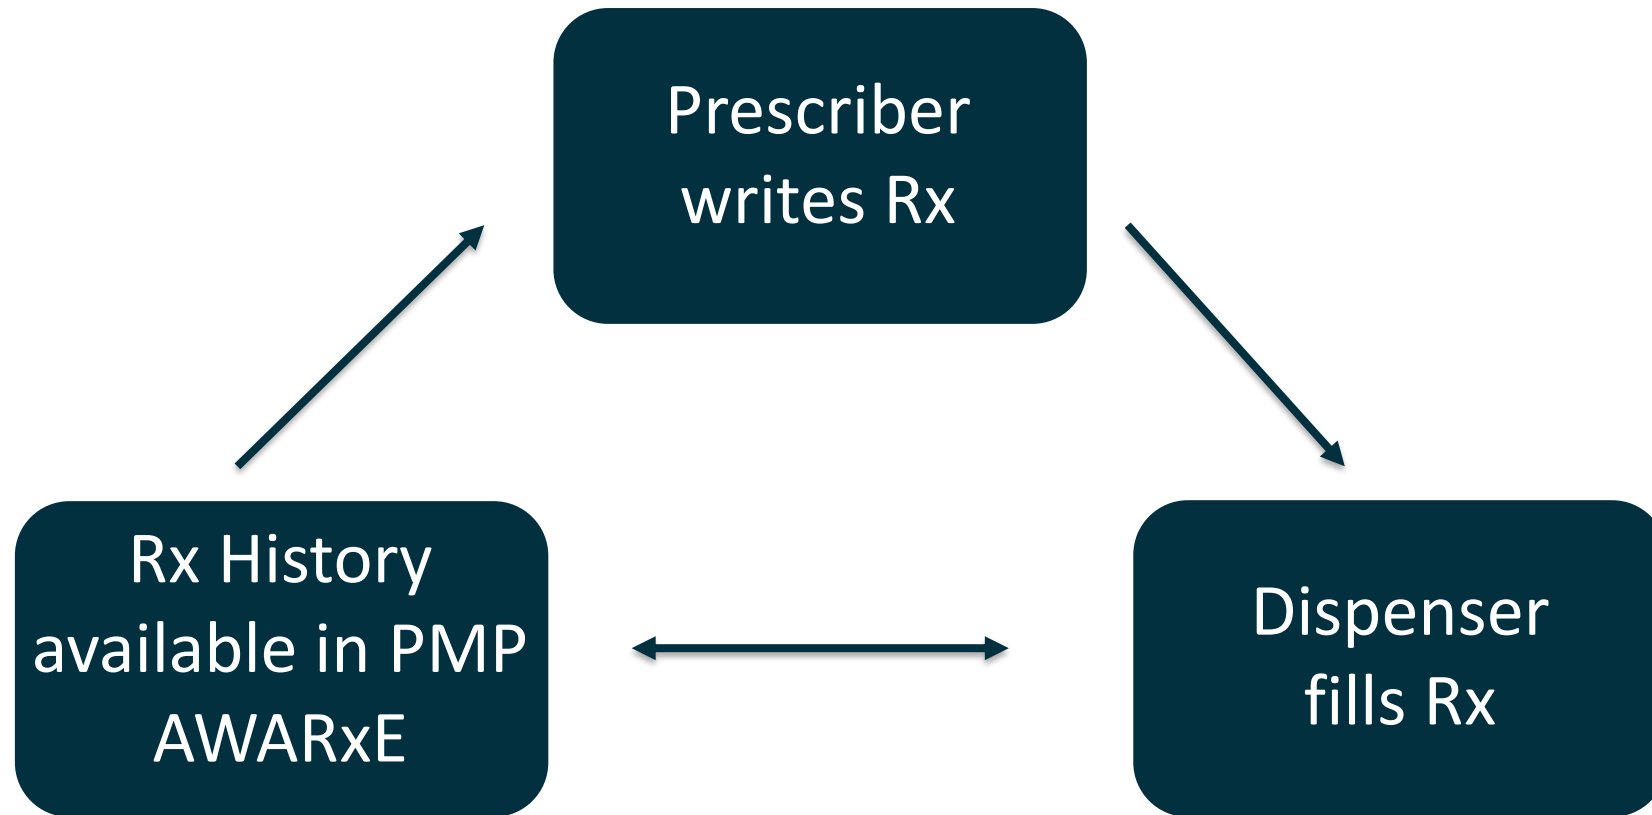

Spring Schmidt

Director, Division of Health Promotion
& Public Health Research

PDMP Purpose

- Improve controlled substance prescribing
- Inform clinical practice
- Reduce the number of people who misuse, abuse, or overdose

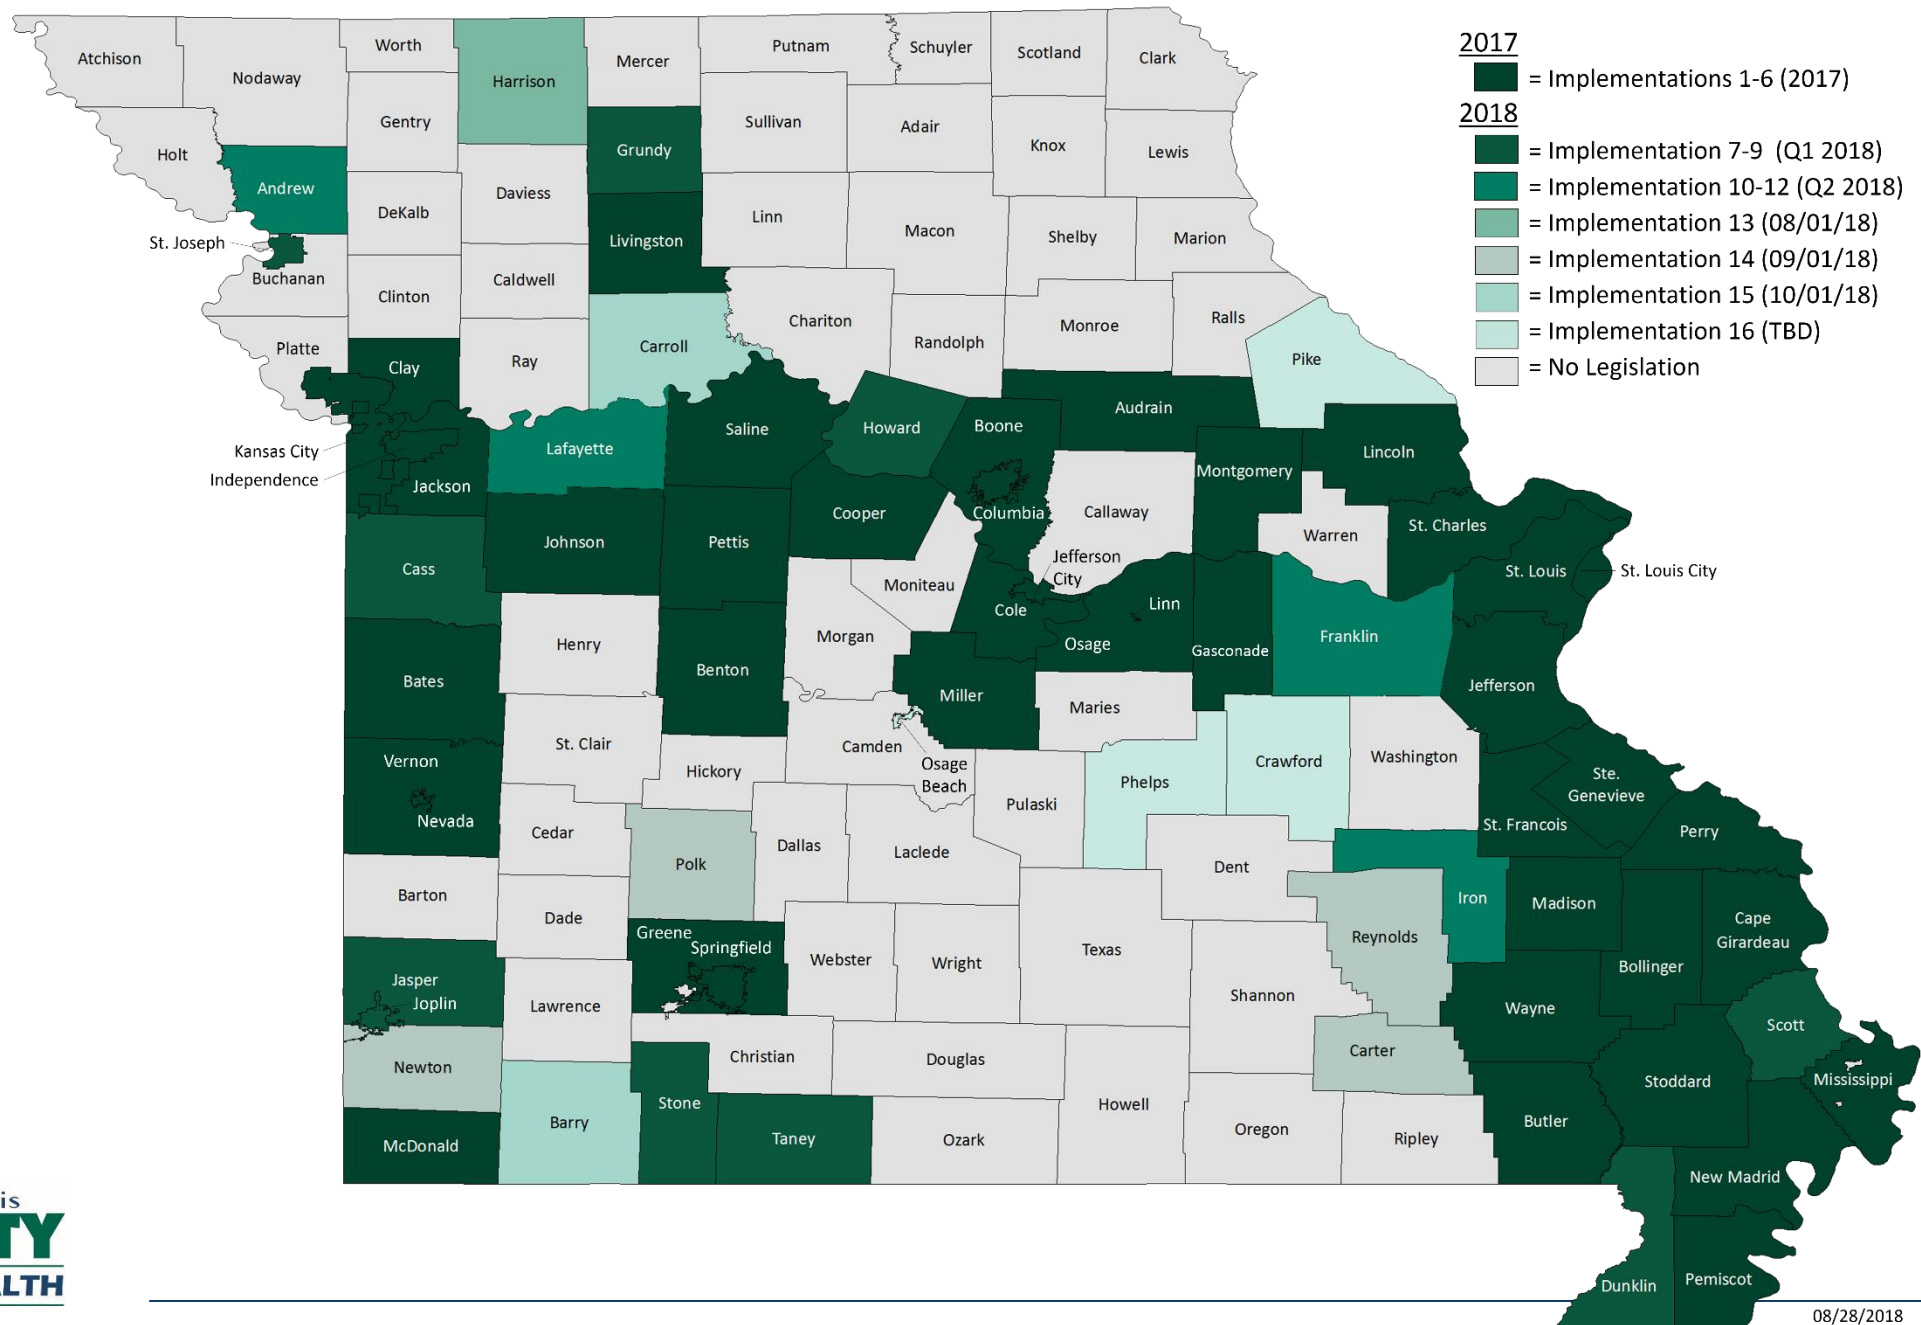

PDMP System

PDMP Participation Process

- To participate, jurisdictions must:
 - Enact legislation authorizing participation in the St. Louis County PDMP
 - Sign the User Agreement with St. Louis County
- Upon enacting legislation & signing the User Agreement, St. Louis County will onboard the jurisdiction in the next possible implementation cycle.
 - Process typically takes ~3 months from enacting legislation to going live with the PDMP.

ST. LOUIS COUNTY PRESCRIPTION DRUG MONITORING PROGRAM

PDMP Content

St. Louis County Ordinance No. 26352 establishes and authorizes the operation of a Prescription Drug Monitoring Program by Saint Louis County Department of Public Health (DPH). The Saint Louis County Prescription Drug Monitoring Program (or PDMP) monitors the prescribing and dispensing of schedule II-IV controlled substances to assist in the identification and prevention of prescription drug misuse and abuse. The program's goals are to 1) improve controlled substance prescribing by providing critical information regarding a patient's controlled substance prescription history, 2) inform clinical practice by identifying patients at high-risk who would benefit from early interventions, and 3) reduce the number of people who misuse, abuse, or overdose while making sure patients have access to safe, effective treatment.
